RE: EPA ID No. KSD000203638, Kansas City, Kansas Facility

Dear Mr. Prouty:

As discussed in your August 15, 1991, telephone conversation with Mark Matthews, the Environmental Protection Agency (EPA) is requesting additional information which will help to complete the RCRA Facility Assessment (RFA) of the above referenced facility.

Section 3007 of RCRA, 42 USC Section 6927, provides that any person who generates, stores, treats, transports, disposes of or has handled hazardous wastes shall upon request provide information to EPA for the purposes of enforcing the provisions of Title II of RCRA. Pursuant to the provisions of Section 3007 of RCRA, EPA is requesting that Drew Industrial Division provide the following information to EPA:

1) All analytical data from samples of environmental media (i.e. soil, surface water, ground water, air) taken at the above referenced facility, or taken for the purpose of investigating releases from that facility. Do not include analysis of waste water samples which were taken to determine whether the water was releasable to the sewer system, or reusable, or a hazardous waste. Also include a map or diagram showing the sampling locations, a short description of the analytical methods, a description of the sampling technique, all well construction features, and the date each sample was taken.

2) An estimate of the amount of material spilled from the VSR Sump Vat. (This is the spill identified in the July 29, 1990 KDHE RCRA Compliance Report) Include a margin of error associated with the estimate. Also include information concerning whether the spill was a one time only event, the duration of the event, and the date(s) of the event.

Your facility may, if it desires, assert a business confidentiality claim covering part or all of the information submitted to, or reviewed by EPA. Such a claim may be made by placing on (or attaching to) the information, at the time of its submittal to EPA, a cover sheet, stamped or printed legend, or other suitable form of notice employing language such as "trade secret," "proprietary," or "company confidential." Allegedly confidential portions of otherwise nonconfidential documents should be clearly identified and may be submitted separately to facilitate identification and handling by EPA. If confidential treatment is sought only until a certain date or until the occurrence of a certain event, the request should so state.

Information submitted for which a claim of confidentiality is made will be disclosed by EPA only to the extent and by means authorized by the procedures specified in 40 CFR Part 2, Subpart B. If no such claim is made when information is received by EPA, information may be made available to the public without further notice.

The EPA hereby requests that an itemized response to the information requested above be furnished within thirty (30) days of your receipt of this letter. Your failure to respond with complete and accurate information may subject you to an enforcement action under Section 3008 of RCRA, 42 U.S.C. § 6928. Such enforcement action may include the assessment of penalties of up to twenty-five thousand dollars (\$25,000) for each day of non-compliance.

You are requested to submit this information to:
